## UNA HERRAMIENTA CLAVE PARA LOS PROFESIONALES DEL AMUEBLAMIENTO Y EL INTERIORISMO

Presentamos un nuevo formato basado en colecciones que tratan de cubrir los distintos sectores de amueblamiento: cocinas, baños, mobiliario de salón, armarios o muebles de dormitorio, auxiliares... Éste se compone básicamente de familias de herrajes que se ofrecen en diferentes formatos y disposiciones (pomo, tirador largo, tirador corto...) para integrarse en los distintos soportes o productos. El catálogo está organizado en función de los materiales: acero inoxidable, aluminio, zamak, porcelana, cristal, plástico, e incluso tiradores combinados con piel o con madera... Una variedad que abarca la gran mayoría de materiales existentes para este tipo de usos.

Unos acabados idóneos para satisfacer las necesidades de los clientes más exigentes. Se trata ya de la tercera edición de un catálogo cada vez más demandado, que se va consolidando como uno de los imprescindibles para fabricantes, exposiciones de muebles y prescriptores del sector.

### VERDÚ COMO REFERENTE EN ACABADOS Y TENDENCIAS DECORATIVAS.

El catálogo reúne las últimas tendencias en tiradores, pomos y herrajes embutidos, pero tratando a su vez de responder a las demandas habituales de muchos de los clientes, según las necesidades de cada zona geográfica o cada país.

El negro y el grafito siguen siendo tendencia entre los acabados más deseados. No solo lo demuestra la demanda de nuestros clientes sino la multitud de decoradores e interioristas que los buscan. No obstante, el latón satinado e incluso el blanco están entrando con fuerza.

La combinación de estilos y colores es otra de las características que están marcando las tendencias en el interiorismo. Las cocinas con tiradores embutidos más invisibles, donde predomina el perfil largo; los armarios con tiradores largos y dispuestos de manera vertical, y en el baño y el salón vamos a encontrar ambientes mixtos de estilo clásico y moderno (tiradores a juego de la grifería para los baños o piezas clásicas combinadas con fríos mármoles en el salón son claros ejemplos). No obstante se sigue manteniendo el tirador clásico tradicional en muchas zonas de nuestra geografía.
