Desde 1893, cuatro generaciones han trabajado con el mismo compromiso: hacer crecer un legado basado en el esfuerzo, la constancia y la responsabilidad

Since 1893, four generations have shared the same commitment: to build a legacy based on effort, perseverance, and responsibility.

Creceamos juntos

En Verdú, la tradición y la innovación, se entrelazan para ofrecer soluciones excepcionales en herrajes y suministros industriales para el mueble. Con raíces profundas en Yecla, Murcia, nuestra compañía ha sido sinónimo de calidad y vanguardia desde el año 1893.

Hemos consolidado un legado apoyándonos en nuestras amplias instalaciones que abarcan más de **10.000m²**, con espacios comerciales de más de 3.000 m² y 8.000 m² de almacén, que cubren las necesidades de los clientes más exigentes.

En Joaquín Verdú Díaz SLU, cada día nos dedicamos a la innovación, con ella crecemos y afrontamos los retos del futuro con confianza. Estamos constantemente en la búsqueda de métodos y materiales que nos permitan estar a la vanguardia del diseño y la funcionalidad, ofreciendo soluciones que definen tendencias en el mundo del mueble.

Este catálogo es más que una simple colección de productos; es una ventana a nuestra alma como compañía. Aquí encontrarás no solo herrajes y suministros de la más alta calidad, sino también el reflejo de nuestro compromiso con la innovación, la calidad y el servicio excepcional.

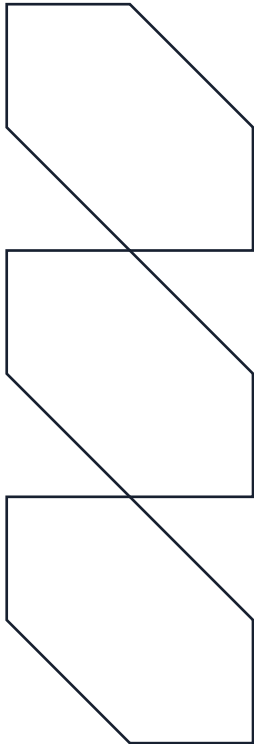

Growing together

At Verdú, tradition and innovation are intertwined to offer exceptional solutions in hardware and industrial supplies for furniture. With deep roots in Yecla, Murcia, our company has been synonymous with quality and avant-garde since 1893.

We have consolidated a legacy based on our extensive facilities, which cover more than 10,000 m², with commercial spaces of more than 3,000 m² and 8,000 m² of warehouse space, meeting the needs of the most demanding customers.

At Joaquín Verdú Díaz SLU, every day we dedicate ourselves to innovation; with it, we grow and face the challenges of the future with confidence. We are constantly searching for methods and materials that allow us to be at the forefront of design and functionality, offering solutions that define trends in the furniture industry.

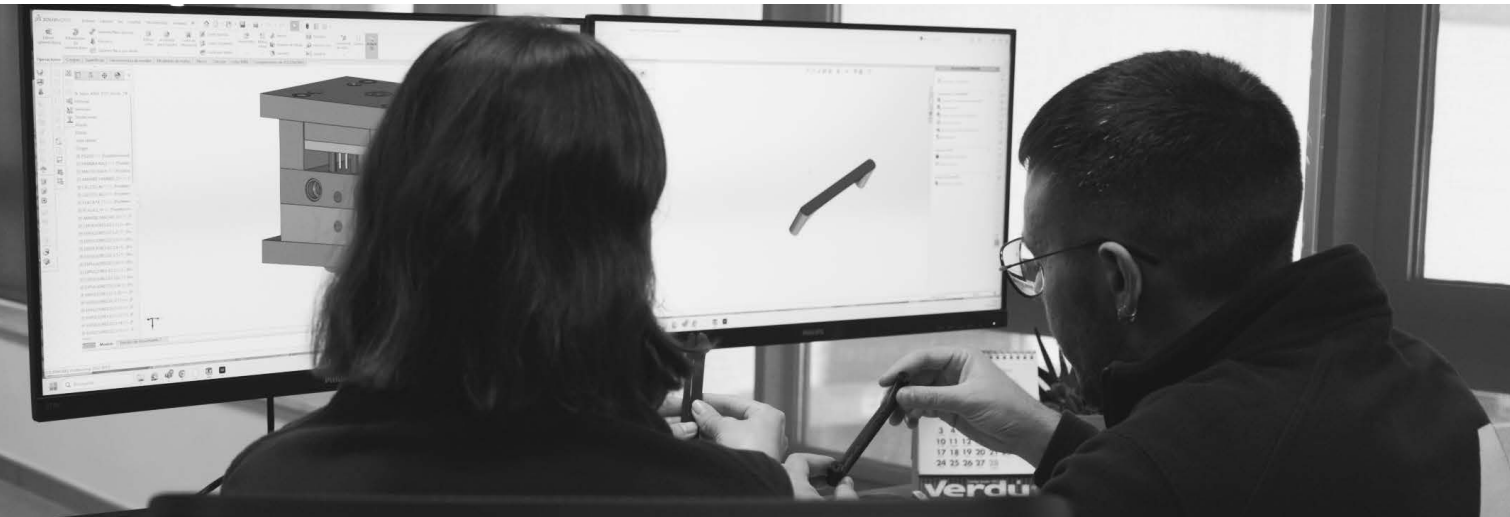

This catalogue is more than just a collection of products; it is a window into our soul as a company. Here you will find not only the highest-quality hardware and supplies, but also a reflection of our commitment to innovation, quality, and exceptional service.

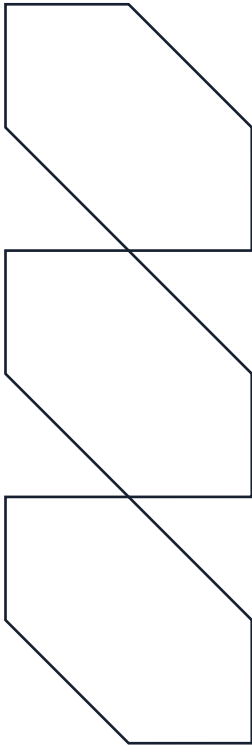

Evolucionar forma parte de quienes somos. Incorporamos soluciones inteligentes para avanzar con solidez, año tras año.
Evolution is part of who we are. We integrate intelligent solutions to move forward with strength and consistency year after year.

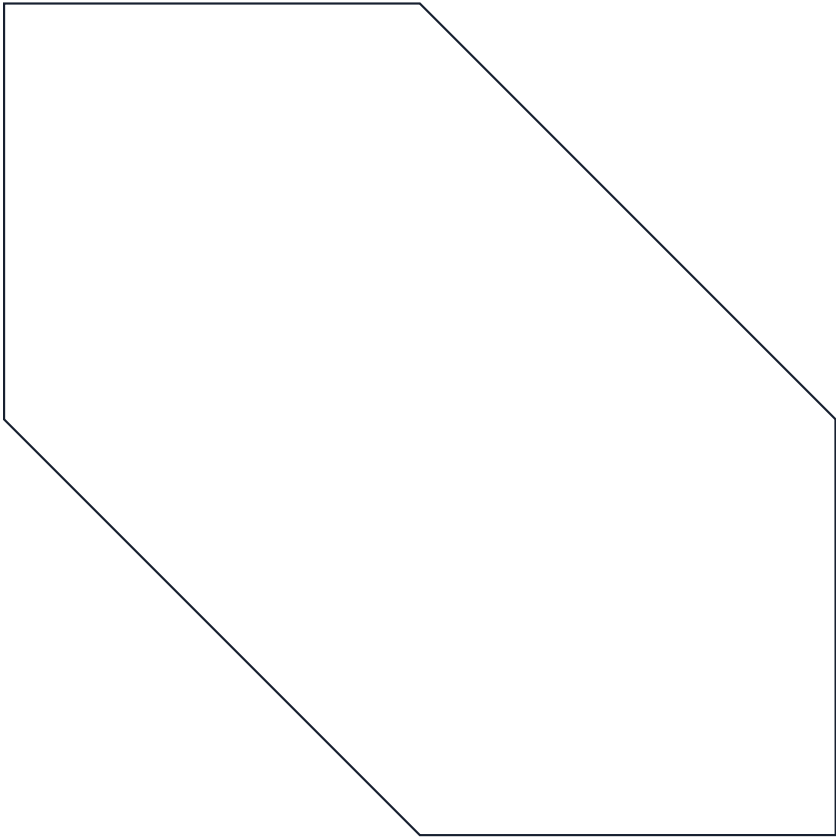

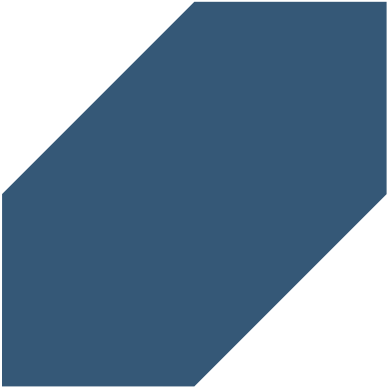

Nuestro compromiso con la fabricación y el diseño garantiza innovación, resistencia y atención al detalle en cada etapa.

Our commitment to manufacturing and design ensures innovation, durability, and attention to detail at every stage of the process.

DEL PLÁSTICO OCEÁNICO A LOS TIRADORES PARA MUEBLES

En el corazón de Jutlandia Occidental, se desarrolla una tecnología innovadora para reciclar redes de pesca desechadas, cuerdas y otros residuos plásticos procedentes de la industria marítima.

Gracias a este proceso, nace una colección de tiradores para muebles fabricada con al menos un 90 % de plástico oceánico reciclado, dando una nueva vida a materiales que, de otro modo, terminarían contaminando nuestros océanos. Una colección que combina diseño, funcionalidad y compromiso con la sostenibilidad.

FROM OCEAN PLASTIC TO FURNITURE HANDLES

In the heart of Western Jutland, an innovative technology is being developed to recycle discarded fishing nets, ropes, and other plastic waste from the maritime industry.

Thanks to this process, a collection of furniture handles made from at least 90% recycled ocean plastic is created, giving a new life to materials that would otherwise end up polluting our oceans. A collection that combines design, functionality, and a commitment to sustainability.

UN VIAJE CIRCULAR

Los océanos del mundo están bajo presión debido al creciente problema de los residuos plásticos. Cada año, millones de toneladas de plástico terminan en el mar, procedentes en gran parte de una gestión inadecuada de residuos y de materiales desechados por la industria marítima, como redes de pesca y cuerdas.

Estos residuos representan una seria amenaza para los ecosistemas marinos, la fauna y el equilibrio natural de nuestros océanos.

A través de procesos avanzados de reciclaje y transformación, este plástico recuperado se convierte en materia prima de alta calidad, utilizada para fabricar tiradores con un diseño actual y un enfoque más sostenible.

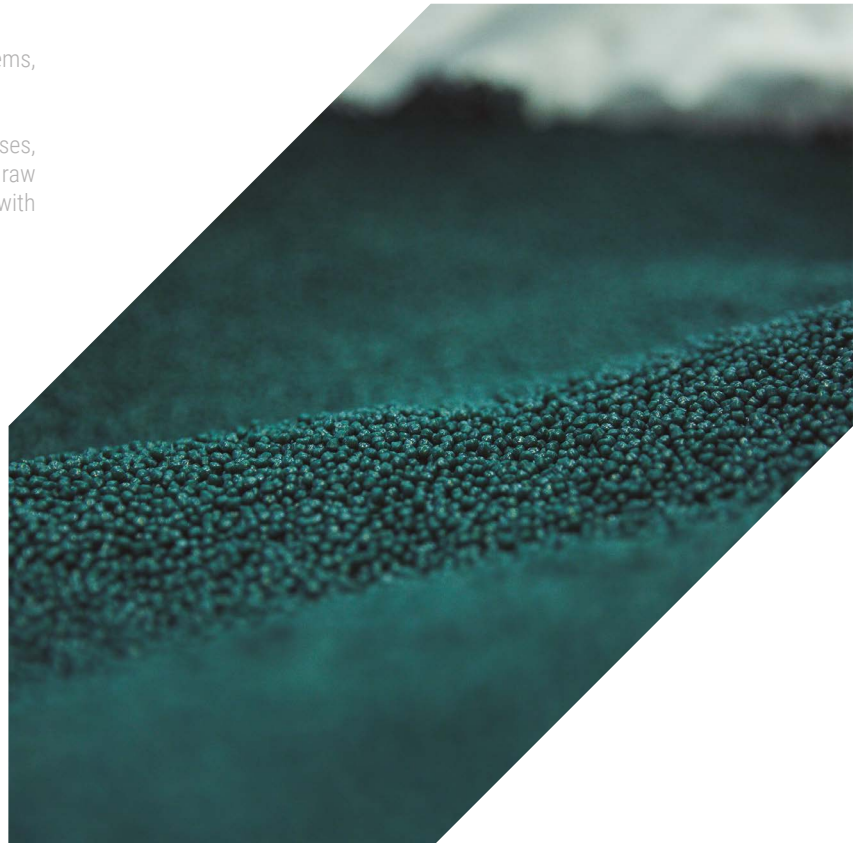

A CIRCULAR JOURNEY

The world's oceans are under pressure due to the growing problem of plastic waste. Every year, millions of tons of plastic end up in the sea, much of it coming from poor waste management and discarded materials from the maritime industry, such as fishing nets and ropes.

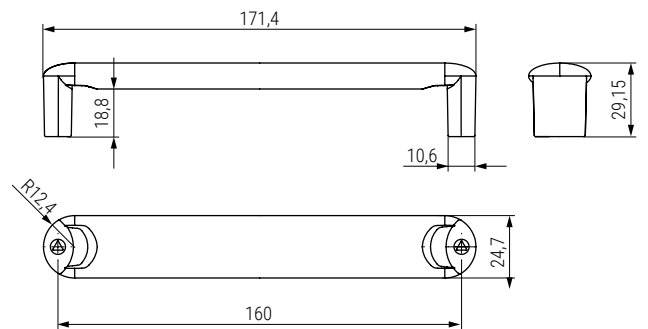

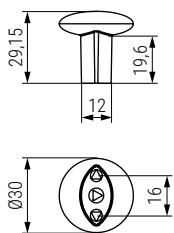

This waste represents a serious threat to marine ecosystems, wildlife, and the natural balance of our oceans.

Through advanced recycling and transformation processes, the recovered plastic is converted into high-quality raw material used to manufacture furniture handles with contemporary design and a more sustainable approach.
